

TrafficEase BD — Complete System UML Class Diagram (MVC Architecture)

UML Architectural Notation & Design Legend:

- Solid Arrows with Open Tips: Association with Multiplicity (e.g. 1-to-many User to Incident relationship)
- Dashed Arrows: Service / Controller Dependency Injection (e.g. RoutePlannerService inspecting active Incidents)

- Visibility: (+) Public Attribute/Method, (-) Private Attribute
- Framework: MERN Stack (MongoDB Models + Express Business Logic + React GIS View)
